

*Process-based
 Composite Applications
 with*

**SAP
 NetWeaver
 CE 7.2**

Our Offering

Common standard IT solutions are based on best practices to reduce cost and improve efficiency. SAP NetWeaver Composition Environment can be used as a tool to support and enhance the companies daily business for innovation, flexibility and responsiveness

We are focused on helping IT organizations to improve business performance and create value by implementing SOA enabled and process-based composite applications with SAP NetWeaver Composition Environment.

Our implementations are based on the new ASAP approach of SAP. We will use only SAP certified consultants and are familiar with the BPM methodology and the methodology for accelerated transformation to service-oriented architecture (SMATS).

Successful implementations start with consulting our experts.

SAP's SOA workshop

In joined effort with SAP, we offer a workshop to experience SAP's SOA- and BPM-related features powered by SAP NetWeaver Composition Environment 7.2 end-to-end. It will take you on a round-trip through all features using streamlined hands-on exercises!

By building the process you are experiencing SAP NetWeaver BPM (including process analytics), SAP NetWeaver BRM as well as service composition and simplification. Besides that, one special purpose exercise dives into the details of a sustainable SOA-based architecture based on loosely coupled processes.

Other workshops

We know we can and will deliver value and offer therefore also workshops in the following areas:

- Frontend possibilities
- The right GUI for the right user
- The role of SOA in EAI and B2B integration
- The relation between EA, SOA and BPM
- BPM & SOA Governance Approach
- Maturity Healthcheck for BPM and SOA
- Positioning SAP NetWeaver in a IT architecture
